CHICAGO'S HAUNTED HOUSE.

Weird Tales of Chosts Have Frightone Tenants for Many Years.

[SPECIAL TO THE WORLD.] Cincago, July 10. - A curious example of how the opular superstition that a boose is haunted ruins he name of the property is shown by the destruc tion of the handsome two-story trick house at No. 106 Langley avenue. This residence is in perfect repair, and were it not for the fact that it ave no reason for disturbing it. But the weird tales of what the spocks do there in the mignight

tales of what the spocks do there in the midnight bours have frightened all tenants away, and the house has been an unprofitable property ever since the ghosts moved in.

It is in a fashionable quarter of the city, and the years ago its occupants were three maiden sisters named Trowbridge-Elizabeth, aged forty-three; Anna, aged forty, and Nora, a half-witted woman of twenty-five, Taey lived modestly, dressed well and had ome property. On the evening of July 21, 1879, a policeman was summoned to the house. He turned the slide in his lantern and ted the way to the second foor, where, hanging in the archway of the folding-doors, they saw the bodies of the oldest sisters, each suspended from a shook that had been screwed into the woodwork within a week a sign "For Rent" was put up on the house, but renters passed by on the opposite side of the street and pointed out where the tragedy took place. Soon strange stories began to circulate about the neighborhood. Servant girls going to early mass asserted that they saw the ghosts of the "old maids" moving through the deserted rooms, while some insisted that they heard shrieks and moans. People of intelligence laughed at the idea of spooks, yet, in spite or the fact that the house had been put in thorough repair, it remained without a tenant for several years. Finally a family from the East who had heard none of these stories moved in. Within a week they were occupying another house, and the sign "For Hent" was again put up. Their domestic sud that every morning the furniture would be arranged differently from the way it was the night before, while after midnight the sound of feet was plainly heard pattering around in the ballway and on the stairs. Since then several tenants have lived there, but only for a short time. They all laughed in a hali-hearted way at the idea of the house being haunted, but nevertheless they could not be induced to stay.

The double suicide of years are and the siories of the revels of the spooks has cost the owner many thousand soliars. It is

ISPECIAL TO THE WORLD.; CHICAGO, July 10.—The Republicans of Princeton, Ill., held a ratification meeting Saturday night. They called upon Gen. Elliott, one of the leading They called upon Gen. Elliott, one of the leading men of the region and an old-time Republican, to speak. The General opened out on the Chicago Convention and the railroad and monocolistic influences which controlled it, and then turned his attention to the platform which he repudlated from end to end. He advised all other Republicans to do likewise. "There is not a thoughtful Republican here who would not have apurued such a platform three weeks ago," he said, and he counselled his hearers to refrain from voting at the coming election as a mark of from voting at the coming election as a mark of their disapproval of the stand the party had taken.

MURDERER BROOKS'S FATE.

IT WILL REST ON GOV. MOREHOUSE'S DE-CISION TO-MORROW.

The Prisoner's Last Three Days of Life Have Begun Unless the Pleadings of His Lawyers, His Mother and His Sister Prevall--Wonderful Fortitude of the Con-

In connection with the appearance vesterday before Gov. Morehouse, at Jefferson City. Mo., of the attorneys making a final appeal for Hugh M. Brooks, alias Walter H. Lennox-Maxwell, the condemned murderer of C. Arthur Preller, there came to hand such a number of new letters, papers and petitions that the hearing was set over until to-day. Mrs. Brooks and her daughter Annie did not appear before the Governor yesterday, and probably will not do so until the lawyers

have had their say.

Meanwhile, beyond the fact that he has dropped his old flippancy of manner, there is no change in the appearance and conduct of the convicted man. By no outward sign does he show that he realizes how he hovers on the borderland of death, and that his full entrance therein is to be by a terrible and ignominious means.

His fortitude has been the wonderment of

His fortitude has been the wonderment of everybody. The only explanation he offers is this: "You may not believe it, but it is because I have a clear conscience "—an explanation which, unfortunately for him, too many refuse to accept. He says he cannot believe an innocent man will be hauged, but if they hang him he will endeavor to meet his death as bravely as possible. He will go to the gallows with the knowledge that he is being sacrificed for a crime of which he is innocent in order to satisfy public clamor.

An old letter from the mother of the prisoner to the wife of Gov. Morehouse, has just been put in print, from which the following is an extract:

CHESHIRE, ENGLAND, May 14, 1888.

CHESHIRE, ENGLAND, May 14, 1888.

Mer., Morehouse.

Dear Lady: Pray pardon me taking the liberty of aidressing you. When I tell you that I am Hugh M. Brooks's mother, the noor boy now lying under sentence of death at St. Louis, I think you will forgive me. I write to ask your help in the matter and to get you to plead for my poor boy with your dear husband. I do not say my toy is tree from blame, but he has not done a murder, that I am sure of. He was not capable of sheh a thing and everything goes to prove that it was a pure accident and not wilful murder. You are a mother and you may just fancy to yourself what this trouble would have been to you had your dear boy been in my boy's place. "A stranger in a strange land and not a friend mar to speak to." Oh, do help him if you can, and God grant you may be spared such bitter sortow as ours. My boy was exceedingly kind-bearted, and such boys are generally easily persuaded. Look at the difference in the age of my boy, twenty-three years, and Prelier, over thirty years of age. Why did the man overpersuade num to attempt such a thing for nim? Why did he not go to a proper doctor? I do not like to say anything against Prelier, now he is dead, but it certainly was his own fault, and I am afraid from what we have heard that he was not so good as repressued. I know the press has put hundreds of lies in the papers about my boy, but that is no reason because the press wishes to make a great harvest that my boy should lose his life.

Much more the grieving mother words, or well and that he was not so good as repressued. INSURE IN THE CYCLONE
INSURANCE CONTANT.

Every time a big black-and-blue cloud arises in the west the citizens po down cellar and send some of the neighbors' children up to the insurance office to pay up the policy. They never had but one real cyclone here, but the citizens are digety and you can't see their cont-tails for the dust when it darkens up a little.

Everybody wears an umbrella. They call this the pure Italian climate. I never was any nearer italy than "Tae hend," but if Italian climate means that it rains without provocation right in the middle of a sunshiny picnic, we have it. Everybody is shouting "Hallelughal" because we have had so much rain recently. They say it's good for the corn. If rain makes corn the chiropodists are going to reek with wealth this year.

The Missouri River is not quite as high as it was in former years at this time of the year, out the readents of the bottoms have their trusks packed and their cellar foors calked, so that when it comes they can move down tide with the swim and thus legally avoid their creditors. Instead of moving in May, as we do in New York, the residents of the bottoms move every time the river rises, and the river docen't charge any cartage. Several down-river cities have been built in that way, and it is said that Kansas City originated in this way by being caught in between the Kaw and the Big Muddy. Missourit

a great harvest that my boy should lose his life.

Much more the grieving mother wrote, complaining that everything possible had been done at the trial to prejudice the case against her son, but expressing her confidence in the kindness and justice of the Governor.

The decision in Maxwell's case is expected to be made public to-morrow—two days before the day set for the execution.

Land costs from \$25 to \$5,000 per foot. When a man has only money enough to buy eight of ten ieet he builds his house hinches or iwenty stories high, as land is cheep up in that direction.

You can buy simost anything on time—land, cothes, watenes, diamonds, jeweirs, horses, cows, furniture, and everything else imaginable. They charge from 8 to 29 per cent. Interest on the balance due, and before the purchaser has paid up he is in the workhouse or has been given ten hours in which to leave town, and the property, of course, reverts to the original owner.

One avaricious critzen it know has fenced in most of the sidewalk adjoining his land and the neighbors had to build a sidewalk outside the curb line, and it has't much of a day when one of them isn't run down, or up, by a cable car.

I know two other avaricious critzens who have bequeathed their bodies to physicians. The physicians pay them \$30 a year as long as they live, and give them all the whiskey they can drink and throw other temparations in their way. The mortgaged bodies are now moving about town as lively as twin buzz-saws, and it looks as if the physicians were going to be crowded out first.

Most of the houses were built on the old grade of the city. The grade has been raised on most of the thoroughtares, and by crawling to the roofs of their residences the occupants can almost see the feet of the passers by on the sidewalk—just like peeking under a circus tent, you know, and baving a grand time seeing the house of the horses.

A startling epitant grees one at nearity every turn on the business thoroughfares, It is this: the proscenium arch. The decorations are to be elaborate. The ceiling is to give a lace effect over blue sky, and the walls to be tapestried in terra-cotta. An orchestra circle has been added to the lower part of the house. The stage has been enlarged and a building has been erected in the rear where all the dressing-rooms, carpenters' shops and property rooms are to be found, separate from the theatre proper. The Grand Opera-House will be a fine theatre.

Herman Nunemacher, of the Grand Opera-House, Milwaukee, came to this city yester-day on purpose to deny the report that Man-ager H. K. Jacobs had secured his house. Mr. Nunemacher felt grieved. He said that he had booked a number of attractions, spent a great deal of money on his theatre and had no idea at all of civing it up. to idea at all of giving it up.

John F. Harley is to be the business man ager of the Hanlons during the coming sea-son, when the "Voyage en Suisse" and "Phantasma" will be produced. Mr. Harley has allied himself to a good substantial or-ganization, and the Hanlons have secured an energetic young manager.

George L. Smith, manager of James O'Neill, declares with a big and vehement declare that his star will positively play "Monte Cristo" during the coming season. It would be far more interesting, by the bye, to learn that he would not. New scenery is being painted and great preparations made, and Mr. Smith says the season will open in New Jarsey in Saniember. Jersey in September.

Miss Theresa Vaughn, the pretty actress, has composed an "Ave Maria," which is being published by a leading music house. Mr. Slocum, the handsome ex-manager, says it is quite as good as Gouned's. The picture of Miss Vaughn, summering at Red Bank, and composing "aves" as fine as Gouned is

DEAR SIR: I see in your issue of July 6 you mention a new hisy recently secured by Mr. Who, entitled "Running Wild," and state the same to be by Charles T. Vincent. I should esseem it a favor if you would mention that the play is by Mr. Vincent and myself. Yours a neerely,

From the large number of worn-out chairs on his veranda and from the nature of his sign I imagined that he was a school-teacher, but from an interview with him I ascertained that the "caming "referred to chairs. I asked him if he knew Bill Nye, of The Woshin. He said "No!" Somebody had just passed a desultory three-dollar check with his name attached to it on a neighbor and "Bil" nad been called upon to show his hand. He asked me your Nye's address, and as I had understood that the funny William was

NEWS OF THE MEN WHO FIGURE IN THE

MANLIEST GAMES.

The Proposition Grows in Favor to Send an American Team, Instead of Club Teams, to the Foreign Championship Meetings - Charley Mitchell Declared Himself Out of the Ring.

EVERAL gentlemen athletics, seen by Tur EVENING WORLD'S reporter, declared for the new way of sending athletes to England, proposed by the _ Manhattan Athletic Club Chronicle. There is going to be tremendous interest in athletics this autumn over the three big championships of America and Canada, and no one can tell what wonder may be

developed in the West, now that the craze is fairly started there. Heretofore the transfairly started there. Heretofore the transatlantic trips of amateur athletes have been
in the hands of two clubs, which, while it
gave these clubs undue prestige, also compelled the sending across the water of some
very ordinary performers. Once let the
American youth learn that he can secure a
Europeau trip and a hundred other advantages free, if he can win a championship
in the annual spring, instead of the autumn
athletic games, and the general interest in
amateur runners, jumpers, walkers and
weight-pullers will equal that felt in the
national game.

Joe Acton and Arthur Chambers have started for San Francisco, where the former is to wrestle Jimmy Faulkner for a purse offered by the Olympic Athletic Club. Chambers and Acton gave a farewell entertainment in Philadelphia last week. Acton offered \$300 to any man who would wrestle an hour with him without being thrown twice, Acton threw his opponent twice in a very few minutes. The management at Brighton Beach yester-day evidently took The Evenino World's hint and, despite bad weather and the delays of several unruly fields at the post, the six races were run off by 6 o'clock.

An average of 474% guiness per head was obtained at the recent sale of yearlings bred by Her Majesty Queen Victoria.

The decision in the fifth race at Brighton yesterday, giving Lute Arnold a race which four of the reporters present "called" for Joseph, was much criticised. The race-course of the future will have

The race-course of the future will have neither trees, posts nor judges' and timers' stands to interfere with the view. Why don't present race-course authorities take a leaf from the book of the Madison Square Thea-tre management, which long ago put the orchestra over instead of in front of the stage? Fiddles and horns no longer intrude on love scenes. on love scenes. The London Sporting Life says the surprise of the great Huddersfield cricket and athletic meeting, the crack Northern club, was "the grand performance of the New York athlete, W. C. Dohm, in the quarter from scratch, as he ran through a big field on the outside and finished first in the fastest time ever accomplished over the course, and his 51 2-5 stamps him as a real champion. The victory of the American was enthusiastically received."

A letter has been received from Charley Mitchell by a personal friend of the Eng ish-man in this city, saying that Mitchell and Kilrain close their sparring engagements in England next week. They will leave Liver-pool for America on Aug. 1. Mitchell de-clares that he will never enter the prize-ring scain as a principal.
